Also must be attending Company Evaluations

What experience level should my dancer have?

All dancers should have dance experience. As dancers get older the expectation of their ability increases.

Do all students make the Company?

CDW evaluates each student individually based on a criteria and places he/she in a program that is best suited for them whether it be the Company, Performance Team or our Classic Program.

I'm not sure my dancer is ready for company, should they still try out?

Yes, you have the opportunity to accept/deny your position should your dancer be evaluated for the team.

Are teams strictly by age?

No. Dance is different from school. Dancers are grouped based on technique, memory, performance, movement quality and more.

How do you evaluate the dancers?

Based on a point system, dancers are evaluated in various aspects such as technique, performance, memory and classroom etiquette.

What is the financial commitment?

if your dancer is evaluated to be in the Company or Performance Team a guide will be sent that outlines the financial commitment.
